conquering the world

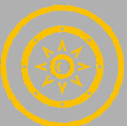

SHIELDING YOUR  
PRECIOUS CARGO

RESISTING ALL  
WEATHER  
CONDITIONS

SUPER STRONG,  
LIKE A VIKING

EXCELLENT PRICE  
QUALITY RATIO

# VIKING

## COMPETITIVE IN THE MOST EXTREME CIRCUMSTANCES

Shielding precious cargo is a task that Vikings have always approached with determination and resilience. Like these mighty warriors of the past, who fearlessly navigated treacherous seas and conquered formidable obstacles, we are ready to take on any challenge that comes our way. With dedication and a commitment to excellence, each aluminium box assures you that your valuable cargo will reach its destination intact and in the most secure manner possible.

### Shielding your precious cargo

Vikings, taking the world by storm and up for the task regardless of the challenges. Always making sure your precious cargo reaches its destination intact. We believe we have a strong case.

### Resisting all weather conditions

Rugged boxes that are built to last through any circumstance. No matter the weather, they live up to your expectation and bring your valuables home safely.

### Super strong, like a Viking

Viking boxes come with all the typical Scandinavian characteristics. They're sturdy, robust and have great overall functional design features.

### Excellent price quality ratio

Vikings are perfectly suited for heavy duty industrial requirements. They protect your sensitive and fragile equipment, yet at a competitive price and customizable.

# MYTHICAL PERFORMANCE

## THE ARTIFACTS

### RUBBER GASKET

Standard applied for extra protection against dust and water.

### EFFICIENT DIMENSION

Perfect fit on pallets.

### COMFORTABLE HANDLES

For ergonomic handling;  
loading capacity 50kg/handle.

### HEAVY DUTY

Aluminium, including corners,  
suitable for extreme conditions.

### LOCKS

These toggle-locks are made  
of aluminium.

### STRONG STRAPS

Protecting the lid.

### STACKABLE

Aluminium corner pieces  
for extra protection  
and to make your boxes  
easily stackable.

### REINFORCEMENT RIBS

Ribs to give the box  
more strength.
